

**SHERWOOD LAKE ASSOCIATION
LAKE MAINTENANCE REPORT
JUNE 2024**

All five of our fountains are working properly.

A note of Appreciation to a couple of our residents for replacing their delapidated bulkheads.

We continue to encourage bulkhead replacement or repair if needed. A properly working structure not only adds value to your property, but it keeps your yard from eroding into the lake and makes it harder for the nutria to live there. **We now have an additional, more competitive contractor for bulkheads if you are thinking of replacing yours. Please contact me at 225-229-5971.**

Please inform your lawn crews that any trash blown into the storm drains goes directly into the lake with the first heavy rainfall. Please be careful with weed and feed applications as these products can also wreak havoc with our lake.

***Please continue to clean up any trash that may be floating by your property.
Thank You to our neighbors who lend a hand at keeping our lake looking beautiful!***

GOALS FOR 2024

1. Continue efforts to encourage residents to repair and/or install bulkheads. Cazes, Smith, and Williams
2. Monitor water conditions for algae bloom, weeds etc. Cazes, Smith and Williams.

**Jim Cazes
Lake Chairman**
