

**SHERWOOD LAKE ASSOCIATION
LAKE MAINTENANCE REPORT
AUGUST 2024**

All five fountains are working properly.

A note of Appreciation to a couple of our residents for replacing rotten bulkheads. These structures are the land owner's responsibility as they protect their property and our lake.

Please inform your lawn crews that any trash, grass clippings, blown into the street end up going down storm drains and directly into the lake with the first heavy rainfall. Please be careful with weed and feed applications and run off as these products can also damage our lake.

*Please continue to clean up any trash that may be floating by your property.
Thank You to our neighbors who lend a hand at keeping our lake looking beautiful!*

GOALS FOR 2024

1. **Continue efforts to encourage residents to repair and/or install bulkheads. Cazes, Smith, and Williams**
2. **Monitor water conditions for algae bloom, weeds etc. Cazes, Smith and Williams.**

**Jim Cazes
Lake Chairman**
